info@lassalle-institut.org · www.lassalle-institut.org

The **Lassalle-Institute** addresses leaders in business, politics and society. It emphasizes ethical conduct derived from holistic consciousness and promotes a value based culture in its lectures, seminars, workshops and specially tailored consulting.

The **Wisdom Leadership Initiative** undertakes projects and offers services designed to accelerate the capacity of leaders to integrate their feminine wisdom, in partnership with their masculine attributes, into their communities, organizations and personal lives.

Present Situation

We are at a special moment in history where new aspects of our power are appearing. We can now transform our past, redefine power and renew our relationship with the true essence of our feminine selves.

This retreat will strengthen the feminine and masculine energies within to bring the balance of power that is so urgently needed. We will use collective inquiry to deeply understand the resonance of better leadership. As women leaders from all aspects of life speaking our deepest desires, we will encourage each other and offer each other seeds of wisdom. We will find our courage and voices together. We will leave stronger and prepared to act in a new way.

As a global community of women leaders, taking on the daunting challenges of our world, we will envision the legacy we want to leave society and develop practical strategies for integrating our wisdom into institutions and communities.

Together we will unleash the power of women's voices and the power of women's wisdom to solve intractable problems and provide the leadership necessary to sustain the world.

Topics

- What do we hold that is "old" about the masculine?
- What is our experience with the feminine?
- What is the appropriate connection of the feminine with our leadership?
- What is the potential partnership of the masculine and the feminine?

In its own unique way this seminar combines new forms of thinking with the intuitive experience and insight of Zen. Silent meditation and workshops generate a powerful source for change. For those who are not familiar with Zen meditation an introduction will be offered.

One afternoon is reserved for a pilgrimage to the black Madonna in Einsiedeln.

Target Group

"Honouring our Wisdom and Power" is for women leaders who want to explore their own power and bring it alive.

Date & Time

March, 16th - 20th

Wednesday, 16:00 – Sunday, 09:00
